EDUCATION

PGDM

Data Science

Data Trained

Noida, India

/ August 2020 – June 2021

BE

Electrical and Electronics Engineering

Visvesvaraya Technological University

Bengaluru, India

/ June 2015 – July 2018

Diploma

Electrical and Electronics Engineering

Directorate of Technical Education

Bengaluru, India

/ May 2012 – May 2015

SKILLS

- Python (NumPy, Pandas, ScikitLearn, Flask)
- SQL (MySQL)
- Microsoft Office complete package.
- Web Scraping.
- Supervised Learning: linear and logistic regressions, decision trees, support vector machines (SVM), KNN, Naive Bayes.
- Unsupervised Learning: k-means clustering.
- principal component analysis (PCA), TSNE
- Data Visualization: of any data using matplotlib, seaborn, plotly.
- NLP – Sentiment analysis, chat bot building, product Reviews analysing, Recommendation system.
- Flask for App deployment.

WORK EXPERIENCE

Data Scientist

Advancement consulting for Statistics (ACS) / Apr 2021 – Present / Kuwait

Responsible for Data cleaning, Data mining, predictive Analytics, missing Data Imputation.

- Responsible for Data analysis using python and complete Dashboard making using python code.
- Created model using Machine learning, and deployed it using flask and heroku.
- Worked for NLP project to build Sentence analyser using tfidf.
- Build Recommendation system for our ecommerce client where the same product can be recommended based on image.
- Worked on Time series Data and Forecast it

Intern Data Scientist

Flip Robo Technology / Dec 2020 – Jun 2021 / Bengaluru, India.

- Built and Analysed a Telecom industry model which offers loans to costumer, predicted that which loan offer is most likely to be taken by the user. Predicted the defaulter and non-defaulter behaviour of paying the loan back on time [Link](#).
- Done web scraping from different websites like naukri.com, amazon.in, ICC.com, Us weather, Glassdoor.com, Imdb.com, bookpage.com and many more [Link](#).
- worked on Power Bi and tableau for Analysis project

Data Scientist/Analyst

Self-employed / Feb 2020 – Dec 2020 / WFH

- Worked as a freelance Data analyst / Scientist and learning the data science life cycle.
- As a Freelance worked and build on music recommendation system.
- Worked on project for self-driving car, like Tesla.
- Works on Quora same tag (question) prediction, we may encounter same question asked n-times, so how we can collect all together and make machine understand that the question asked is same.
- New York yellow taxi prediction, worked on YouTube recommendation system also
- We all are very much aware of Covid-19 so I have done prediction of corona and I visualise the entire data set on world map, I also found while analysing the data set that 80% people who admitted in Hospital get died who's age is above 45 years, I have analysed may 2020 Data of the entire world [Link](#).
- Similarly I have done covid-19 USA data prediction and I also visualise the data using choropleth map [Link](#).
- For more projects you can visit my website [Link](#)

Electrical Engineer

Ober Construction Pvt Ltd / Dec 2018 – Jan 2020 / Kolkata, India

- I was working here as an Electrical Engineer on contract basis on Haldia Refinery in Kolkata, India, as an Electrical Engineer.
- Responsible for making AutoCAD drawing, Tried to make my co-workers to understand about the wiring diagram.

KhurramShakoor

Data Scientist

SKILLS

- streamlit with python for making apps.
- heroku ,git init deployment.
- Feature engineering.
- jupyter notebook, Google colab, visual studio,spyder.
- Digital marketing, SEO search, WordPress.
- Entrepreneur skills Pitched ideas for startup.
- Business expanding ideas.
- Blog writing on medium.
- Electrical engineer Skills.

Lab Instructor

Acharya Polytechnic / June 2018 – Sep 2018 / Bengaluru, India

- So my job was just to instruct polytechnic student to carry out their Practical lab work.
